1-08-2001, Male, Lebanese

## SUMMARY

Motivated Odoo & Web Developer with hands-on experience in developing Odoo custom modules and integrating AI-powered features. Skilled in Python, Odoo ORM, XML, and PostgreSQL, with additional backend expertise in .NET Core, SQL Server, and Node.js. Passionate about developing efficient ERP solutions and continuously improving technical expertise within the Odoo ecosystem.

## EDUCATION

- Graduated 2023      Master 1 in Computer Science – Lebanese University, Faculty of Sciences
- Graduated 2022      Bachelor's Degree in Computer Science – Lebanese University, Faculty of Sciences

## PROFESSIONAL EXPERIENCE

### Odoo Developer Intern – Navybits (1 month)

- CRM AI Integration: Developed a feature named navybits\_deep\_research, which automatically retrieves company information using AI when a company name is entered in the CRM.
- HR Automation: Added a functionality allowing HR staff to upload a candidate's CV as a PDF, automatically reading and filling the data using AI.
- BOQ Task: Contributed to a Bill of Quantities (BOQ) feature for handling quantity and project-related data.
- Developed a small Sales Route Planning module using Odoo ORM, Python, and XML as part of a technical test for internship entry. GitHub: [bahaa-masri/sales\\_route\\_odoo](https://github.com/bahaa-masri/sales_route_odoo)

### Web Developer – Telepathy (7 months)

- Developed and optimized backend systems using .NET Core, SQL Server, SSIS, MongoDB, and Redis.
- Implemented a Notification System API for real-time updates.
- Enhanced performance by replacing Entity Framework with optimized SQL queries.
- Collaborated on frontend tasks using .NET MVC and jQuery.

## FULL STACK DEVELOPER – PERSONAL MERN PROJECT

- Worked on a small web application using the MERN stack (MongoDB, Express.js, React.js, Node.js) to strengthen full-stack development skills.

## TRAININGS

- Graduated 2023      Mobile Application Vocational Training Program – WATAD Association
- Completed 2023      Backend Development Internship – Salaam Association (Part of Training Program)

## TECHNICAL SKILLS

- Odoo Development: Python, Odoo ORM, XML, QWeb, PostgreSQL, Module Development, Menus, Actions, Security, AI Integration
- Backend: .NET Core, Node.js, Express.js, SQL Server, MongoDB, Redis, SSIS
- Frontend: jQuery, HTML, CSS, React.js, Angular, Next.js
- Programming Languages: Python, C#, Java, JavaScript, TypeScript, C, C++
